

A passion for quality

We add a splash of colour -
Attention-grabbing refinements for exclusive contents

Individual refinements

We offer you a wide range of finishing options. Whether classic-elegant, modern or extravagant; our portfolio is extraordinary and extensive. The luxuriously finished ampoules we already offer from a quantity of 10.000 pieces.

Customer wishes are our passion

The more specific the customer requirements are, the clearer the quality advantages of the Lutz ampoule and bottle production. With our long experience we offer a solution for the most diverse requirements for primary packaging made of tubular glass.

The closed, completely lacquered ampoules are refined after filling and printed.

Coloured translucent painted surfaces for the visualisation of high-quality content.

Shiny metallic surfaces in modern colours increase the attention of exclusive cosmetics in the glass ampoule.

Shiny metallic surfaces in gold and silver colour for particularly luxurious contents.

Black or white opaque painted surfaces to protect sensitive contents.

Refinement of open ampoules with gradients

Partly defined surfaces

A delicate play of colours with great effect. Glossy surfaces of delicate colours are perfectly suited for the visualisation of high-quality contents.

PARTLY DEFINED

The open ampoules are refined and printed before filling.

Refinement of open ampoules with special surfaces

Metallized surfaces

For a brilliant appearance with high attention to the special contents are metallized surfaces a „Must-have“.

METALLIZED

Coloured metallized surfaces as eye-catcher

AMBER GLASS

Refined surfaces made of amber glass are extravagant and give the ampoule a completely special charm.

BLACK & WHITE

100% process optimization and documentation during production are a matter of course for us and offer our customers security for their workflow.

Special highlights

According to your wishes and ideas, we will be happy to refine your product in an exclusive way. You are welcome to share your ideas with us.

Printing with individual colours

The printing with individual colour tones enables an eye-catching branding as well as a contemporary application of product information directly on the ampoule.

Special Glow

We are especially proud of our chrome gloss effect for a very special appearance. This stunning GLOW makes every ampoule glow and draws attention on the precious contents.

CHROMIUM SHINE

PRINTING

The closed or open ampoules can be printed filigree or placative.

Screen printing for colourfulness

Almost all colours are possible in screen printing. Bottles and ampoules can be printed with 1 - 3 colours simultaneously.

THREE-COLOUR PRINTING

Certified production

Lutz Packaging is certified according to DIN ISO 9001:2015 and DIN ISO 15378:2018. This guarantees highest precision and quality of our products. Our production technology can be flexibly and quickly adjusted to specific production requirements and quantities. This enables us to fulfil your wishes quickly and reliably.

RHINESTONE

A special highlight in the sector of our ampoules are specially refined ampoules, for example with a rhinestone in different colours.

Accessories for the perfect completion of the ampoule assortment

Wide range of accessories

A suitable addition with practical added value is offered by our matching accessories.

ACCESSORIES

Ampoule Breakers

With this aid an easy opening of the ampoules is guaranteed. Nearly all colours (according to PANTONE) can be realized.

100% recycled
Our small transparent ampoule breaker made of 100% recycled material fits in every package.

Adapplicators

The ideal daily companion a refreshing feeling of well-being. Handy, practical and available in many colours.

ADAPPLICATORS

New Design

Our new hand flattering adapplicators in elegant cosmetic design with integrated ampoule breaker. By simply inserting the ampoule, you can easily spray the contents. The ideal companion whenever needed. (Shortly available!)

The right packaging for exclusive contents

Individual and tailor-made

We realize your ideas of an individual packaging with you. Special requirements are realized with confidence.

PACKAGING

Whether classic consumer packaging, practical travel set or exclusive bathroom display, we will find the perfect solution for your presentation needs.

Consumer packaging

The displays, specially designed for the daily use of ampoules, guarantee protection, storage as well as optimal preservation.

High quality contents have the goal to be packed in high quality! Exclusive refinement technologies create visual and haptic worlds of experience.

MAGIC BOX

Exclusive packaging

The variety of colours, shapes and surfaces enables a high-quality design, which also takes your existing corporate design into account.
